Deep SUNA Ocean Nitrate Sensor

Product #:

DEEPSUNAOCEANNITRATESENSOR

USD Price:

Contact Sea-Bird

Based on the proven MBARI-ISUS nitrate sensor, the Deep SUNA has been redesigned for easy integration with AUVs of all types. Deep SUNA provides real time, chemical-free nitrate calculations in deep ocean environments using Sea-Bird Scientific's advanced UV absorption technology. For AUV integration details, please ask about our third party integration experience.

Features:

- Real-time temperature/salinity compensation
- Real-time nitrate calculation
- Corrosion-proof anodized aluminum housing with 2000 meter depth rating
- Simple software-based, in-field reference checks
- User-friendly UCI software (Windows and Mac OS X compatible)
- Full UV spectrum for maximum accuracy
