

SBE 3F/3Plus/3S Oceanographic Temperature Sensor

Product #:

SBE3F_3PLUS_3S

USD Price:

Contact Sea-Bird

Intended primarily for use on the SBE 911plus profiling CTD (3plus) and the 25plus profiling CTD (3F), the SBE 3 can also be used as a component in custom oceanographic systems or for high-accuracy industrial and environmental temperature monitoring applications.

The superior performance of the SBE 3 results from its optimized electronic design, superior calibration, response characterization, and quality testing program.
